Re: Application for Change under Ground Water Certificate No. G3-23389C

Dear Mr. & Mrs. Bailie:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

- Allow for the property to come out of the CRP contract and finish development of the permit.

The new deadline to submit your *Proof of Appropriation of Water* is **November 1, 2017**.

These lands lie within the Columbia Basin Project. Should contracts or water rights be issued from the Project that include lands developed under this authorization, these lands will be subject to RCW 90.44.510.

If water from facilities of any legally formed irrigation district or the USBR is used on any or all of the lands described and developed herein as the place of use, the quantities of water withdrawn under this authorization shall be proportionately reduced to correspond to the acreage for which water is not available.

RCW 90.44.510 confirms that should water be supplied to these lands and replaced with Columbia Basin Project Water, the permit or certificate, or portion thereof shall be designated as a standby or reserve water right. The total number of acres irrigated must not exceed the quantity of water authorized by the Bureau of Reclamation and the authorized number of acres under the permit.
